***Functionality: Access to only registered users.***

**(a)unregistered customer access denied**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
1.1	Yes	Unregistered customer username,password	Access denied with message	Pass	15/4/2020

**(b)unregistered manager access denied**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
1.2	Yes	Unregistered manager username,password	Access denied with message	Pass	15/4/2020

---

***Functionality: Access only with valid credentials.***

**(a)valid customer access**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
2.2	Yes	Valid (username, password)	Access to customer account and redirect to welcome guest page	Pass	15/4/2020
2.1	Yes	Invalid (username, password)	Access denied with message	Pass	15/4/2020

**(b)valid manager access**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
2.4	Yes	Valid (username, password)	Access to manager account and redirection to welcome manager page	Pass	15/4/2020
2.3	Yes	Invalid (username, password)	Access denied with message	Pass	15/4/2020

***Functionality:Order consisting of items from only one restaurant.***

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
3.0	No	Customer account	Single order contains only items from a single restaurant	Pass	20/4/2020

---

***Functionality:One Manager can control only one Restaurant (Add restaurant).***

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
4.0	No	Manager account	Manager linked to at most one restaurant	Pass	26/4/2020

---

***Functionality:Manager manages menu of the restaurant.***

**(a)view menu**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
5.1	No	Manager account	List of food items available in the menu of restaurant linked	Pass	26/4/2020

**(b)add to menu**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
5.2	No	Manager account, food item details	Food details gets added to database	Pass	26/4/2020

**(c)edit menu**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
5.3	No	Manager account, menu of the restaurant	Changes get reflected in the database	Pass	26/4/2020

**(d)remove from menu**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
5.4	No	Manager account, menu of the restaurant	Removal of the food item from the database	Pass	26/4/2020

**(e)view order details**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
5.5	No	Manager account	Sales report of the restaurant	Pass	26/4/2020

---

***Functionality:Customer Cart.*****(a)add to cart**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
6.1	No	Customer account	Selected food items get added to the cart of the current session.	Pass	26/4/2020

**(b)remove from cart**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
6.2	No	Customer account	Remove selected food from the cart of the current session	Pass	26/4/2020

**(c)order items in cart**

Test case ID	Pre defined criteria	Inputs	Expected output	pass/fail	Execution date
6.3	No	Customer account	Confirmation page with order number	Pass	26/4/2020
