# 1. Introduction

## 1.1. Purpose

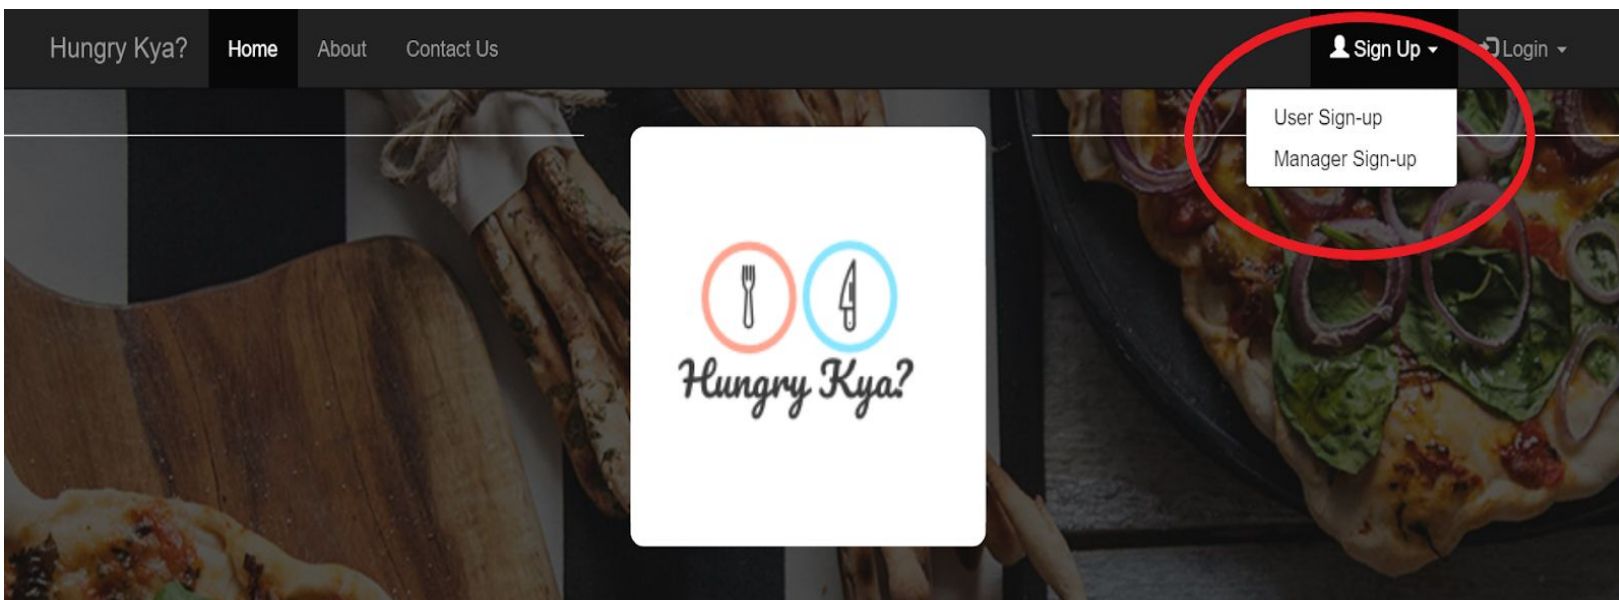

- The purpose of “HungryKya? Online Food Ordering System” is to provide food at the doorstep of the customers from various different restaurants using a web application. This document presents a detailed explanation of the objectives, features and user interface. It will also describe how the system will perform and under which it must operate. Both the stakeholders and the developers of the system can benefit from this document.

# 2. Design :-

## 2.1. Our Homepage :-

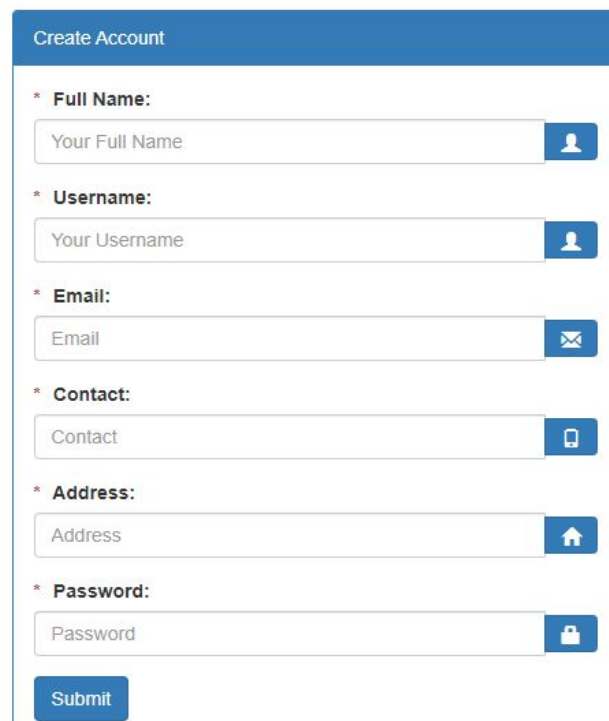

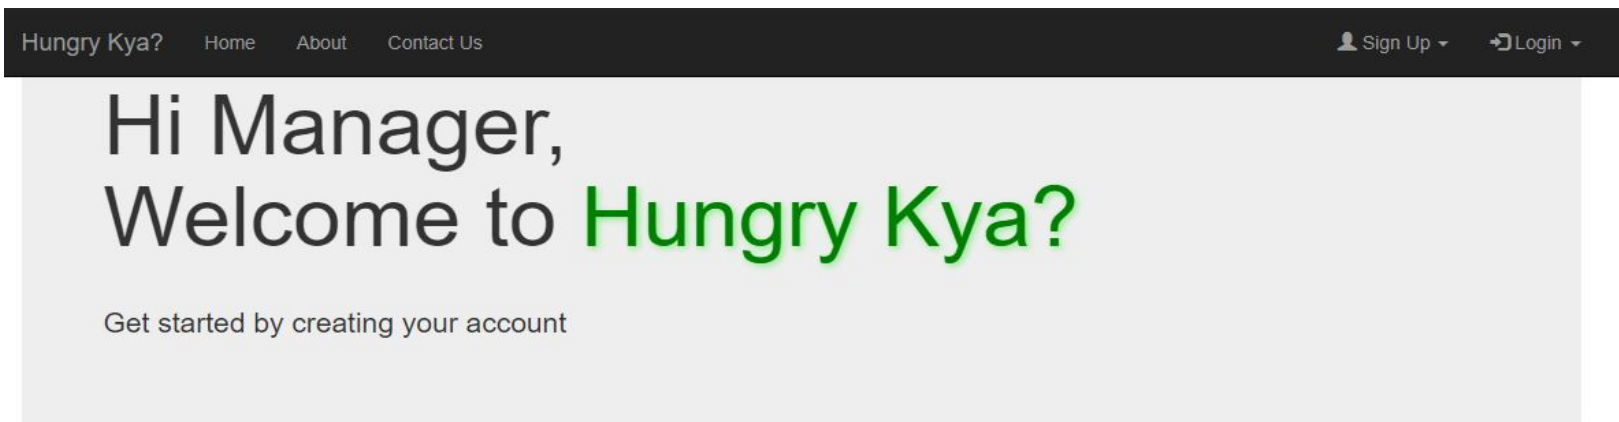

## 2.2. Register yourself

- In our system we have two categories of participants.
  1. Customers : who is willing to use our platform to order food from the restaurant of his/her own choice.
  2. Managers : who use our platform to have a better reach to the customers. They also use our platform to organise their sales and create sales reports.
- A person can sign up either as a Customer or as a Manager.
- Based on the choice they are directed to respective sign up pages.

### 3. Register as a restaurant manager

#### 3.1. Manager Sign-up (Step 1)

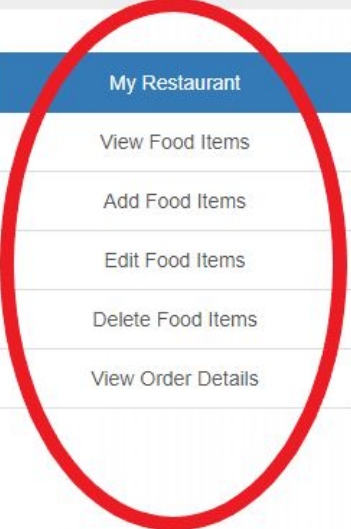

A 'Create Account' form with a blue header. It contains six input fields, each with a label, a placeholder, and an icon: 'Full Name' (person icon), 'Username' (person icon), 'Email' (envelope icon), 'Contact' (phone icon), 'Address' (house icon), and 'Password' (lock icon). All fields are marked with an asterisk. A blue 'Submit' button is at the bottom.

- Here, the manager needs to fill the above mentioned details to register his/her restaurant into our system.

### 3.2. Manager Sign(Step 2)

# Hello Manager!

Manage all your restaurant from here

My Restaurant
View Food Items
Add Food Items
Edit Food Items
Delete Food Items
View Order Details

## MY RESTAURANT

ADD RESTAURANT

- Here, Manager needs to add the details of the restaurant for which he/she needs to use the system for reaching customers and creating sales reports.
- Manager can create a menu of his own restaurant which he wants to display to the customers.
- Also the manager can edit the menu according to him.

### 3.3. Create /Manage your own menu

# Hello Manager!

Manage all your restaurant from here

My Restaurant
View Food Items
Add Food Items
Edit Food Items
Delete Food Items
View Order Details

## ADD NEW FOOD ITEM HERE

ADD FOOD

- Here the manager of the restaurant can add food items into the system for which he/she wants to use the system to reach customers.

>	8	58	2020-05-14	Juicy Masala Paneer Kathi Roll	40	2	userjd

- Once a customer places the order, it gets displayed on the dashboard of the restaurant manager.
- After that manager confirms the order and starts preparation of the food.

## 6. About us

It's not our **work life**, it's our *life's work*.

### OUR TEAM

Hungry Kya? is a joint-venture performed by some university students. We care about quality, craft and disciplined experimentation.

### A FEW THINGS WE BELIEVE

#### 1. Interrogate the premise.

Test every assumption. Make sure the problems we aim to solve are the right ones.

#### 2. Find the opportunity.

Dive head first into research and come up with a strategy that feels like an **AH HA!** moment.

#### 3. Clients == teammates.

You hired Food Exploria, and now we're one team with a shared mission. Let's figure it out together.

#### 4. Be tech-agnostic.

Our engineers favour versatility over specialization, using the best technology for the job.

#### 5. Design for real life.

The things we make will add measurable value to your business and the lives of your users.
